

STATEMENT OF COMPANY POLICY AND AUTHORITY

It is the policy of M. J. QUINN INTEGRATED SERVICES LIMITED, to provide products and installations, which conform to the customer's contractual requirements and expectations. To achieve this, M.J. QUINN INTEGRATED SERVICES LIMITED, have established and maintain an effective and efficient Quality Programme planned and developed in conjunction with other Management functions. The programme has the unqualified support of the executive management who ensures the policy is understood, implemented and maintained by all concerned personnel in the Company by training, instruction, distribution of procedures and other instruction documents and internal audit and review.

This Quality Manual accurately and adequately describes the programme in use in M.J. QUINN INTEGRATED SERVICES LIMITED, to meet the requirements of BS EN ISO 9001 : 2000 (The Standard) in providing products, installations, application design, servicing and maintenance work, including fire detection, water sprinkler and alarm systems.

The Board of Directors to ensure the effectiveness of the system is maintained in an efficient and economic manner continually monitors all Quality Assurance activities. In addition the directors are also committed to continuously improve the effectiveness of the system by setting measurable, achievable quality objectives, the objectives will be reviewed during management review meetings.

It is a mandatory requirement that all personnel comply with the policies, systems and procedures in this programme as required contractually. Company personnel are also responsible for bringing to the attention of their Management any deficiencies, either real or potential, for timely and effective corrective action.

The Quality Manager has the authority and responsibility to maintain the Quality Assurance Programme and the freedom to recognise and resolve quality problems.

It is Company policy to provide reasonable access to clients representatives to ascertain the effectiveness of the Company's Quality System provided this is agreed contractually.
